PROFILE SUMMARY

Enthusiastic B.Tech Information Technology graduate and motivated Python Django Developer with hands-on experience in web application development and backend engineering. Experienced as an Academic Advisor, mentoring interns and guiding them throughout their learning journey while fostering technical growth. Strong problem-solving skills with a solid foundation in Python, Django, and web technologies. Passionate about web application security and cybersecurity best practices, with a commitment to continuous learning and professional development. Seeking opportunities to contribute to impactful real-world projects while expanding expertise as a software developer.

SKILLS

Languages: Python | JavaScript | SQL
Frameworks: Django | DRF | JWT Authentication | OAuth
Databases: MySQL | PostgreSQL
Frontend: HTML5 | CSS3 | Tailwind CSS | Bootstrap
Cloud & Integrations: Cloudinary | Requests Library
Version Control & Tools: Git | Github | Linux
Core Skills: Serialization | API Development | Debugging
Soft Skills: Problem Solving | Logical Thinking | Continuous Learning | Mentoring

PROFESSIONAL EXPERIENCE

Academic Advisor

08/2025 – 06/2026

Bridgeon Solutions

- Managed and tracked the progress of multiple trainees, ensuring timely completion of learning milestones.
- Coordinated with mentors and reviewers to resolve issues and maintain training schedules.
- Analyzed trainee performance and provided structured feedback to support continuous improvement.
- Maintained trainee records, review schedules, and progress reports with accuracy and attention to detail.

PROJECT EXPERIENCE

SOLEDROP | E-Commerce Shoe Selling Platform

- Developed a shoe-selling web application using Django following the MVT architecture.
 - Implemented product listing, product detail pages, shopping cart, and order placement functionality.
 - Integrated Cloudinary for product image storage and management.
 - Configured PostgreSQL for data storage and management.
 - Implemented Telegram order notifications using the Python Requests library to provide real-time order updates.
 - Designed a responsive user interface for seamless usage across desktop and mobile devices.
- Managed source code and version control using Git and GitHub.
